

COVID-19 RECOVERY PROGRAM THE COLLECTIVE NEED

A recovery path for COVID-19 patients in the community

A mandate to maximize the abilities of people now facing complex health challenges

A strategy to reduce the impact on our healthcare system from the legacy of an unknown illness

WHY

- To address the ongoing health challenges for COVID-19 patients discharged into the community
- To capture data towards developing care models for complex patients
- To share information with invested parties: public health, government, insurance, the medical community, and the academic community

WHO

- An integrated group of practitioners collaborating to address ongoing complications & challenges
- Experts who work with complex patients
- Referrals from medical practitioners or self-referrals
- Working with COVID-19 patients living with residual health concerns

POSITIVE TESTS

10716

AS OF 07/29/2020

KNOWN HOSPITALIZATION COSTS PER DAY

ICU	ACUTE CARE HOSPITALIZATION
\$10000.00	\$8000.00

KNOWN IMPACT OF SEVERE LUNG INJURY

RELEVANT STUDIES INDICATE

Collection of health problems persisting for months or years after
Return to work not 100%
Quality of life diminished
Physical function diminished
Diagnosed depression & anxiety

NEED TO KNOW

WHAT IT TAKES
TO REDUCE THE
SOCIETAL BURDEN OF CARE
& TO RETURN TO A
BETTER QUALITY OF LIFE

WHAT

PROJECT SCOPE: Provincial
PROJECT TYPE: New Initiative
WHO BENEFITS: General Public
OF PATIENTS: Pilot 20 Funding Dependent
IMPLEMENTATION TIMEFRAME: 18 Months

- Integrative Care
- Early Intervention Therapy
- Complex Patient Care Models
- Delivered by Multidisciplinary Team
- Data Capture and Concluding Report

HOW

Screening for Program Entry
24 Week Program
Multidisciplinary Delivery:
Nutrition
Mental Health
Physical Therapy
Respiratory Physiotherapy
Majority virtually delivered
Immediate implementation

RECOVERY PROGRAM

THE ASK

PROGRAM REFERRALS

Referral of a COVID-19 patient who will then be screened for eligibility

Synaptic to provide program information sharing template and link to screening

Based on funding up to 20 individuals will benefit from a 24 week program
